FCC Information Quality Guidelines

The FCC is dedicated to ensuring that all data it disseminates reflect a level of quality commensurate with the nature and timeliness of the information. Further, the FCC seeks to disseminate all its data as broadly and promptly as possible so that the public can benefit from the FCC's work of ensuring vital and innovative communication services are available to all Americans at reasonable prices. In keeping with this commitment, and in accordance with OMB requirements, the FCC has developed the following draft Information Quality Guidelines for public review and comment:
